PROFESSIONAL
EXPERIENCE

Front-End Developer | 2021 — Present

VOLO LLC

Implemented new features and enhanced UI components across critical government data-management systems. Drove performance work yielding a 30% reduction in page-load times; ran code reviews for quality and best practices, working in Jira.

Technologies used

- TypeScript
- React
- Next.js
- Knockout.js
- Angular.js
- jQuery
- Tailwind

Front-End Developer | 2018 — 2021

MERSOFT LLC

Built and maintained the front-end of a business platform for restaurants, cafés and shops — a QR-menu experience uniting menu browsing, table booking and delivery/pick-up ordering in one interface. Focused on UX and streamlining business operations.

Technologies used

- Angular
- React
- RxJS
- Redux
- Google Maps
