

Hayk Baroyan

Front-end engineer, building full-stack

Yerevan, Armenia · haykbaroyan@yahoo.com · <https://www.linkedin.com/in/haykbaroyan-560027170/>

Experience

VOLO LLC — Front-End Developer

2021 — Present

Implemented new features and enhanced UI components across critical government data-management systems. Drove performance work yielding a 30% reduction in page-load times; ran code reviews for quality and best practices, working in Jira.

TypeScript, React, Next.js, Knockout.js, Angular.js, jQuery, Tailwind

MERSOFT LLC — Front-End Developer

2018 — 2021

Built and maintained the front-end of a business platform for restaurants, cafés and shops — a QR-menu experience uniting menu browsing, table booking and delivery/pick-up ordering in one interface. Focused on UX and streamlining business operations.

Angular, React, RxJS, Redux, Google Maps

4P1P LLC — Front-End Developer

2018

First professional steps in web development — website markup, adding interactivity with JavaScript, and adjustments to existing WordPress projects. Practical experience in front-end structure, responsive design and basic CMS workflows.

JavaScript, WordPress, HTML5, CSS3

Education

M.Sc. Management & Information Technology

West Saxon University of Applied Sciences, Zwickau (Germany) · Armenian State University of Economics — joint program — 2024 — 2026
